

# SAGAR CHAKKARKOTA

Frontend Developer

📍 Navi Mumbai, MH

✉️ [chakkarkotasagar@gmail.com](mailto:chakkarkotasagar@gmail.com)

📞 7769037336

## PROFILE

Experienced in developing user-friendly insurance platforms using **React.js**, **Next.js**, **TypeScript**, and **Tailwind CSS**. Skilled in ensuring UI consistency, performance optimization, and seamless API integration with Axios. Proficient in managing data using TanStack Query, with a focus on improving user experiences through effective frontend solutions.

## EXPERIENCE

### FYNTUNE Solutions - Navi Mumbai

09/2023 - Present

#### React js Developer

##### Term and Investment Insurance Platforms

- Focused on UI fixes for one month, improving user interface consistency and user experience using React.js, Redux Toolkit Query and MUI.

##### Corporate Travel and Affinity Insurance Platforms

- Joined the development team, contributing to the platform's frontend development.
- Focused on delivering high-quality interfaces for corporate insurance and affinity platforms using React.js, Next.js, TypeScript, and Tailwind CSS.
- Utilized TanStack Query for effective caching and management of API responses.
- Implemented Headless UI components to create accessible and customizable reusable UI components.
- Integrated RESTful APIs using Axios to better data flow.
- Designed reusable UI components and templates using React.js and Tailwind CSS for cohesive and efficient user interfaces.
- Ensured responsive design with Tailwind CSS for a seamless experience across mobile, tablet, and desktop.

##### Frontend Best Practices

Maintained best practices in frontend development, ensuring code quality (eg. DRY principles), performance optimization, and maintainability.
